

RE MASTER

You trusted us with the original.
You came back to us for the parts.

Why not let us RE  MASTER your original units?

Let Master Power Transmission provide solutions to your maintenance needs.

Our proactive approach to gear box service will allow you to reduce your critical spares inventory without jeopardizing machine up time. More importantly, it will eliminate the day to day fire fighting.

Master Power Transmission will....

1. Identify, record, and catalog all Master Power Transmission products in your facility
2. Rationalize your inventory and look for ways to consolidate
3. Recommend which gearboxes to replace vs. repair
4. Implement a SWAP program to minimize downtime during repair
5. Identify needed enhancements on current gear boxes
6. Work with your maintenance team to develop a repair schedule based on your specific needs

Master Power Transmission has taken steps to go beyond supplying heavy duty AGMA rated gear boxes. In January 2016 we opened a full service repair facility in Greenville, SC. Since then, we have invested in placing key roles within the company to evaluate your service needs and the performance of your Power Transmission products.

Advantages of using Master Power Transmission's Solutions Service Program:

- Full service repair on all Master Power Transmission Products
 - Master XL
 - APG
 - ComboGear
 - Reeves MotoDrive
 - Ultima
- Factory manufactured parts in stock
- Gear boxes assembled to original factory specifications
- Analysis within 48 hours
- Full factory warranty available on most rebuilds
- Root cause analysis of gearbox failures
- Product enhancement recommendations
- On site critical spares inventory analysis
- SWAP programs

Contact us today at 888-616-1094 or at customerservice@master-pt.com to learn more about how we can increase your up time.

DOING ORDINARY THINGS IN AN EXTRAORDINARY WAY.

Made in the U.S.A.

“The winners in the industry are the ones driven to modernize. They offer safer work environments, higher quality products and increased productivity through lean manufacturing processes. When you manufacture locally to your customers, you also do a better job on customer service: greater flexibility to customize and faster response to their needs.”

– Michael Cinquemani
CEO, Master Power Transmission

Master Power Transmission believes in US-based manufacturing. Manufacturing jobs are the fuel that keeps our economic engine running. US-based manufacturers have continued to become more efficient, more competitive, offer safer work environments and higher quality throughout the last decade. We invite you to learn more about the new dawn of American Manufacturing and our rebirth as a nation of innovation.
